1. Students should be able to design an Entity Relationship Diagram for a given set of requirements.

Sample set of requirements

"Adyapana" is an institute for students who have completed their Advanced Levels in the Science stream. At present, more than 2500 students study at the institute.

A large number of processes are included in the system utilised at the institute.

01. Student Registration.
02. Subject Registration.
03. Teacher Enrolment.
04. Student Payment.
05. Class Registration.
06. Student and Teacher enrolment for subject
07. Student attendance.

The student attendance of each class can be viewed while due reports of all classes are also viewable.

This process is handled manually at present and has been challenging to the institute's management. They have suggested to move on to a computerised system in order to manage these processes accurately.

Draw ER diagram.

Draw business process diagram.

Draw use case diagram.

Design wireframes and reports.
